Dear Mr. Venables,

Subject: Presentation to Authorised Firearms Officers.

Thank you for presentation you gave to my Rifle Officers/Tactical Advisors on the humane destruction of large mammals on Friday 21<sup>st</sup> December 2002 at the Firearms Training Complex. I believe your practitioner based approach was both interesting and informative and as a result there was much debate about certain issues amongst the group.

The in-depth appreciation about this highly specialist skill will undoubtedly benefit them operationally and will also enhance the decision making process of those who take command of such incidents.

Once again your professional services were very much appreciated indeed!

Yours sincerely

Inspector S. J. Parry  
Chief Firearms Instructor.
